HOW TO...

Graphic Design Services - Prepare Files 53

Production Time - Place Your Order 53

Banner Stands

use side by side for a large dynamic back wall

Add banner stands to an existing display to announce a new product or sales promotion.

Banner stands are economical and easy to setup.

- All banner stands include carry bag.
- Includes printed graphic, (except hardware only orders).
- Most stands have a light option.

WAVE TUBE® MODULAR™

Frame Kits

Wave Tube® Modular™ displays are a unique and flexible trade show display system. Choose from premade booth kits or design your own booth space with individual modular panels that come in a variety of shapes and sizes. Each panel features a photo quality, dye-sublimation fabric graphic. Easily slip the cover over the tubular frame and zip it closed. Your custom printed graphic stretches to create a beautifully seamless backdrop.

METAL PHOTO PRINTS

*Fusion Print Technology for
Brilliant Colors & Crisp Details*

Our metal picture prints are fade, moisture, stain and scratch resistant. Using a dye-sublimation process, the high-definition image is fused into the durable, protective coating on the metal which can last for generations. Our metal picture prints can be used to showcase your brand, fine art, or photos in any trade show, retail, home or office setting.

Available in sizes 8x10 to 23x47 - See website for more details

*Different
Backing
Choices*

- Printed on 1.2mm thick aluminum metal.
- Coating is a high gloss white that provides true whites and blacks.
- High-definition dye-sublimation print.
- Metal easel with attached wall hanging clip included.
- Fade, stain, moisture and scratch resistant.
- Shipped in cardboard box with wooden backing.

GRAPHIC DESIGN SERVICES

LET OUR HIGHLY-SKILLED DESIGNERS CRAFT YOUR IDEA INTO A POLISHED MASTERPIECE.

Our graphic artists are experienced in basic to complex typesetting, layout and image placement for optimum visibility and composition balance and elaborating on initial mock-ups and sketches. Call for pricing.

RENDER SERVICES

Art must be sized and submitted on the proper template. Prior to the start of your project, our designers will provide an estimate of the amount of time required. Please contact us for additional information. Call for pricing.

HOW TO PREPARE GRAPHIC FILES

TEMPLATES - SIZE

Layout guidelines and templates can be downloaded from each of the product pages on our website.

Make your graphic dimensions match the product you are purchasing.

Your image should be to size of your product at 72-150 dpi.

Bleeds: Not all products require bleeds; check guidelines for specific product requirements.

RESOLUTION - FILE TYPES

Final size files are only required to be 72-150 dpi.

You can view your file in Photoshop at 100% to see how it will look when printed.

If designing to reduced scale, adjust dpi accordingly.

We accept files from the following programs and formats: Adobe Photoshop and Adobe Illustrator: .ai, .psd, .tiff, .eps and high resolution jpg.

COLOR

Your print file must be in CMYK format.

Colors can look drastically different when converted from RGB. We can color match with a provided PMS code and editable files.

However, we can only guarantee color accuracy when a printed proof is ordered and approved.

Pixelated Edges

Bitmap at Proper DPI

BITMAP - RASTER IMAGE

Bitmaps images are made up entirely of pixels. When enlarging a bitmap image, additional pixels are added to create this new size.

The "new" pixels pick up and average colors from neighboring pixels in an attempt to create a new color that will blend between areas. This is where the overall image becomes soft and blurry and sharp defined edges develop noticeable jagged pixelated edges.

VECTOR IMAGE

Vector graphics use points, lines and curves to create an image. It's based on mathematical formulas and unlike bitmaps can be enlarged to any size, any resolution, without losing detail.

PRODUCTION TIME

All Production times are based on graphic approval and full payment.

Production will start the day following graphic approval.
