

**NORTH AMERICA
DISPLAY
CORPORATION**

Structural Integrity Statement

January 1, 2024

To whom it my concern,

This letter is to attest to the fact that North America Display Corporation's banner stands and hanging banner stands have been properly engineered and tested. They meet all applicable regulations and safety measures. However, this letter does not attest to the set up or installation of said banner stands and hanging banner stands, or to the customer's specific use, only to the construction of the banner frame and graphic, and the materials used.

Sincerely,

Terrence P. Niedermeyer
President
