

# Timberline Hybrid Display

## Setup Instructions

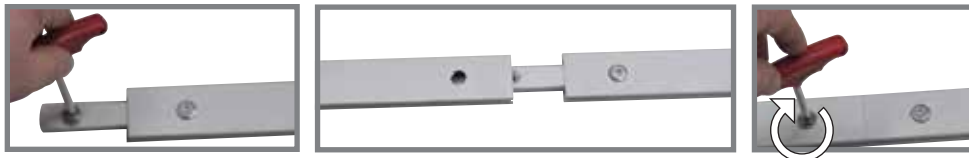

**VERTICAL SUPPORTS** Each 10' Kit includes: 2 posts, 2 feet, 4 screws

**STEP  
1**

**MAIN HORIZONTAL SUPPORTS** Each 10' Kit includes: 2 bars (2 pieces per bar) (insert panel retainers for header in this step).

**STEP  
2**

Slide inside out and lock; then insert into second half of the bar and lock with tool. **Insert panel retainers for header now.**

Slide graphic into groove of the horizontal top bar. Then connect top horizontal bar into vertical posts.

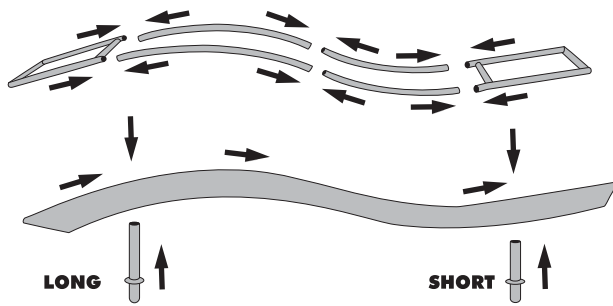

Once you have the top bar in place slide graphic into bottom horizontal bar and connect the same way. Once all horizontal bars are in place you can then push the silicone edges of your graphic into the vertical post grooves.

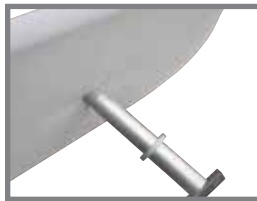

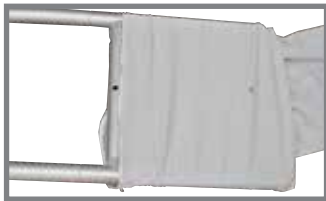

## TOP WAVE

-Each 10' Kit includes: 6 bars, 2 posts, 2 screws & 1 fabric cover

**STEP**  
**3**

The pieces are labeled so that you can easily snap together.

Once you have the hardware together for the wave top; you can slide the fabric cover over like a pillow case and zip up. After cover is on hardware push screws through top provided holes and screw into posts on bottom side.

You can then insert the entire wave top into the top of the vertical bars.

## HEADER

Each 10' Kit includes: 1 acrylic header

**STEP**  
**4**

You can attach the header into the panel retainers that you inserted into the top horizontal bar now. These simply slide in and tighten.

## LIGHTS

Each 10' Kit includes: 2 lights, 2 light clips

**STEP**  
**5**

Slide the light clip into the bottom of the lights. Then slide the light into the top horizontal bar as shown.

## **TABLE** -includes: 4 pieces, 4 screws, 2 large bolts, 2 wing nuts, 1 clamp

**STEP**  
**5**

Attach table legs together with their top and bottom base plates and screws. Then attach acrylic table top with large bolts and wing nuts to top of base plate on legs. Attach clamp to back of acrylic table top for insertion into vertical posts.

## **SHELVES** -includes: 3 pieces, 3 brackets, 6 large bolts, 6 wing nuts

**STEP**  
**6**

Attach brackets into vertical posts, tighten then place acrylic shelves on top and secure using large bolts and wing nuts.

Your display should look something like this. Note: picture only shows one shelf.

## **END PANELS** - Fabric includes: 2 pieces, 4 bars Acrylic includes: 4 pieces, 8 panel retainer

**STEP**  
**7**

Fabric Ends: insert graphics the same way as main panel. Slide silicone edge of graphic into top & bottom bars. Then insert bars into posts on sides of the

Acrylic Ends: insert panel retainers into vertical posts. Then insert acrylic sides into panel retainers and tighten.
