About This Product

Simply open the frame, attach the hooks, and your trade show display is complete. The graphic unfolds with the frame and stretches to produce a smooth, continuous image. The durable, lightweight frame allows for easy set-up in less than a minute, no tools required.

Star Fabrics are printed using a durable wrinkle-resistant polyester fabric. The dye-sublimation process transfers your full color image directly to the fabric. This is all done by using an ink transfer to permanently 'burn' your image to your display.
