About This Product

Our Wave Tube display is popular due to its ease of transport, ease of set up, and very economic price. The portable display is transported in a case small enough to qualify as a carry-on item with most airlines -- great for when you're traveling to trade shows, exhibits and special events. The frame and graphic together are very lightweight and easy to ship if needed.

Your display will set up in just minutes and look fantastic, with the graphic perfectly stretched across the Wave Tube frame to create a virtually wrinkle-free surface.

Aerial grid of 10' x 10' space

Side View
