About This Product

Our Wave Tube series of displays feature lightweight, easy-to-assemble aluminum tube frames, which are then snugly zipped up inside of our dye-sublimation printed custom fabric graphics.

The Wave Tube 10' Curved is great to be used alone or in combination to fill a larger space. The pillowcase design makes it easy to upgrade to front and back graphics to use in the middle of a space or flip it around to give your booth two different options with one cover.
